

# LF2000 Receiver

The LF2000 is a powerful and durable receiver that is also remarkably easy to use. Locates any 512 Hz sonde in cast iron or non-metallic lines. Uses 6 off-the-shelf AA alkaline batteries. A clear clicking sound provides intuitive feedback on signal strength - the faster the click, the stronger the signal. Clear LCD screens (with automatic backlight compensation) guide you through the steps critical to locating with accurate position as well as precise depth. Locating is enhanced by handle vibration and LED feedback at key locating points, in addition to on-screen imagery.

## LF2000
